## POSTOFFICE 2 GAMES IN LEAD AS FIRST HALF NEARS ITS END

### Jones Has Chance to Win Sole Right to Second Tonight

The lines between the first and second division clubs in the Murray softball league are pretty well determined as the season nears the end of the first half. Postoffice is two games in front with Jones, Recall and Parker Bros. tied for second.

In the second division are Bank of Murray, which has come forward like a runner after the past three weeks, Model Cleaners

All softball players in the Murray Municipal League and team sponsors are asked to meet at the courthouse Monday night at 8 o'clock. The meeting will be presided over by Nat Ryan-Hughes, chairman of the advisory board.

The purpose of the meeting is to explain any and all changes deemed necessary for the second half which opens Wednesday, July 13, and to correct mistakes made during the first half.

The changes will be of much interest to all players and team sponsors and all are asked to be present that they may have a full representation to vote any changes thought necessary.

Interest in the game has surpassed all expectations and the advisory council is making every attempt to keep the game interesting and desire to make some changes in the present set-up.

Over 100 have been interested in the league from player and sponsor standpoint and the fan attendance has averaged above 500 in attendance.

which is showing improved play and Vandevelde and Ledger & Times, tied for last as both have faded into indifferent and shoddy play.

Tonight, Jones has a chance to clip a game off Postoffice's lead and gain undisputed sway over second in the first game. Bank and Model will fight it out for first in the second division in the nightcap.

Tomorrow night, The News Hawks and the Plumbers will contest to get out of the cellar in the opener with Recall and Parker battling for third place or a tie for second, provided Jones loses tonight, in the final.

Next Tuesday night, July 3, Parker and Model are on tap for the first game and Bank of Murray and Ledger & Times in the second game.

Tuesday, June 26  
The hapless Ledger & Times was shoved into a tie with Vandevelde last place by the Jones Drugists, 16-3, the latter pulling up into a three-way tie for second when Recall dropped the night-cap to Model.

Outland held all the News Hawks in hand except Glenn Jeffrey who got four for four. The drugists cut loose with a three-run outburst in the second and tucked the game away. The news men were never dangerous, their single run in the first being all they got until one, each in the closing frames.

A sensational garrison finish, capped by Stanfil Cutchin's home run with the bases jammed, carried the Model Cleaners to a victory over the luckless Recall's in the final. Model got a break in the first when Mills dropped a fly after holding it momentarily and it was ruled a hit. The Cleaners went on to score four runs to match the equal amount counted by the drugists in the opening half of the frame.

The drugists apparently tied the fracas with six runs in the third to overcome a two-run deficiency. Going into the last of the seventh the Cleaners were trailing 12 to 7 when they engineered their famous drive.

### 4 COUNTY TEAMS TO PLAY SOFTBALL

Double-header Here Each Saturday Night, Beginning July 14, Planned.

If preliminary plans go through four county teams will start a softball season on the Murray high field Saturday night, July 14. At a meeting here Monday night Pine Bluff, Hazel and Lynn Grove definitely promised teams while Kirksey or Concord will provide the fourth team.

It was proposed that a double-header be played each Saturday night, to have a split season, to restrict the players on each club to the respective school districts and to have no admission.

Admission will be five cents, the same as in the Murray league; net receipts to go toward lighting the field after providing the balls and nominal expenses to the participating teams.

Further announcements of the new league will be made.

### L. S. Anderson Co. Has New Salesman

The L. S. Anderson Motor Company of Mayfield, Paducah and Paris, Tenn., has a new representative and salesman in Murray, J. L. Pennington has accepted the Murray territory succeeding Mason Rose. Mr. and Mrs. Pennington have moved to Murray and have apartments at the Butterworth Apts.

more prominence because of the up-set involved with the News-Hawks holding last place alone, before the games, defeating the Recall outfit 11-8. The first game was more as was expected with the Postoffice defeating the Model Cleaners 7-5. The Postoffice and the Recall teams were tied for first position and the games of Thursday night left the Male-men on top alone, Recall second, Parker third, and Jones fourth.

The last position was very prominent as four rested on the last rung. Vandy, Model, Bank of Murray, and Ledger & Times. The News-Hawks and the Bank, long struggling for the last classification had plenty of company for a day. The Friday games changed it all.

Friday Night, June 22  
The Bank of Murray defeated Parker Brothers Garage 12-11 Friday night, scoring after two men were out and eased up to fifth place, being tied for last before the titt. The garagemen scored seven in the second and the game was theirs until the last draw when J. Weeks started the bank scoring rally. Each team counted 18 hits.

In the second game, the Vandevelde took position of the last place by being topped by the Male-men 15-8. The Male-men scored eight points before the plumbers scratched but counted only two more hits than the plumbers.

### Mrs. Mason's Parents Will Mark Golden Wedding Anniversary

Dr. and Mrs. W. H. Mason and Patricia expect to leave Murray July 3 for Washington, D. C., to attend the golden wedding anniversary of Dr. and Mrs. D. H. Kress, parents of Mrs. Mason. The golden anniversary of Dr. and Mrs. Kress will be held in Washington July 3, and a wide circle of friends are expecting to attend. Dr. and Mrs. Mason expect to be away from Murray only a few days.

### Murray Gets Sewer Money

The City of Murray was one of the seven included in Kentucky in the recent appropriations under the P. W. A. signed by President Roosevelt Wednesday. The recent appropriation was for \$33,000,883 going to thirty states, Hawaii and Alaska.

The Murray officials have not received any official instruction or notification direct from Washington and no immediate steps have been planned. The money is assured, however, and the city council will take up plans for development at their Friday night meeting.

The application for the allotment was made through the C. W. A. before the funds were depleted under that act several months ago. The Murray application was late but received approval and on depletion of funds was turned over to the P. W. A. The allotment will mean the employment of 34 men for 8 months.

### Appropriation Bill Is a Whopper

FRANKFORT, Ky., June 26—After adopting amendments boosting many items, the House of the State Legislature late today passed the \$46,000,000 appropriation bill for the next biennium.

The vote of 66 to 21 in favor of the measure came after some of the members warned that the budget for the next fiscal year would be \$4,000,000 out of balance.

### Income Tax Bill To Die in Senate?

FRANKFORT, Ky., June 26—Action on the controversial income tax bill, which has been shuffled back and forth in the Senate since the House passed it last month, again was deferred today after having been made a special order of business for this afternoon.

Today's action in postponing a showdown in the bill until 2 p. m. Friday strengthened persistent reports that the measure, proposed by the Legislative Interim Committee, is destined to ultimate defeat or oblivion in the Senate.

### Dime Sales Will Not Pay the Tax

FRANKFORT, Ky., June 26—The three per cent sales tax law enacted by the current special session of the Kentucky General Assembly will not apply to retail sales under ten cents, the State Tax Commission announced today following a series of conferences with merchants from Louisville and Central Kentucky cities.

### Murray Plays Union City Here Today, 4:00

The Murray baseball club, with the strongest lineup it has put in the field this year, will meet the strong Union City team at the Murray park this afternoon. The Union City nine has defeated Jackson, Tenn., Ocoila and the best teams in that section. A real game is promised Murray diamond fans this afternoon at 4 o'clock.

### Resident Taken To State Asylum

Mrs. Hattie Dixon, whose home is between Almo and Shiloh, was taken to the Western State Hospital, Hopkinsville, Wednesday afternoon. She was adjudged of unsound mind in county court here Wednesday afternoon.

Mrs. Dixon had been given treatment there several years ago and had recently become deranged. She left her home last night and was found by neighbors Wednesday morning in a nearby woods where she was thought to have spent the night.

## Municipal Airport Here To Be Dedicated Friday

Some of the seventeen airplanes in the state air tour squadron which will take part in the dedication of the Murray Municipal Airport tomorrow.

Murray expects thousands tomorrow for the dedication of the Murray Municipal Airport. The dedication program will be four hours in length with an hour's program from 10 a. m. to 11 a. m. with speakers from Murray and Louisville on program.

The air squadron of seventeen planes will be under the command of Major John C. Bennett, Jr., Louisville, airport advisor of the state and will be accompanied by 40 visitors including members of the Louisville Board of Trade. The dedication program will be completed at 2 p. m. and the state group will leave Murray for Louisville.

Following the dedication program, stunt planes from Indianapolis will be in the air from 2 o'clock until dark. The entire event is sponsored by the Young Business Men's Club and the event is planned to be one of the largest dedication programs in the West Kentucky tour. The club has arranged for an all-day affair with well managed parking, refreshments, eats, souvenirs and the flyers have a full bag of aerial tricks. Passengers will be taken up by the flyers.

The formal program from 10 to 11 o'clock Friday morning will include:  
Arrival of planes, 10 a. m.  
Music by Murray State College band.

### FUNERAL SUNDAY FOR MISS WILKINS

### Two Are Injured Monday in Crash

Rob Lamb's milk truck and a car driven by Henry Humphrey, of Puryear, collided head-on just north of Hazel on the Murray-Paris highway. Monday afternoon resulting in two men being sent to the Mason Hospital for treatment.

Grover Stevens and Hazle Paschall, both of Puryear, were in the car with Mr. Humphrey when the accident occurred. Mr. Stevens suffered from various cuts and bruises, but it was reported no bones broken. The impact of the crash threw Mr. Stevens heavily against his chest causing him severe pain. Mr. Paschall suffered a deep scalp wound and a painful cut on his right arm. Mr. Paschall remained in the hospital over night, but Mr. Stevens was permitted to return to his home Monday night.

The best information which could be obtained from those who saw the accident, Mr. Humphrey, became confused as to which side of the road the milk truck intended to stop on and in the confusion a head-on collision resulted. Mr. Humphrey's car was badly damaged, but he escaped with only a slight scalp wound.

### Largest Singing In Years Here Sunday

One of the largest singings since the annual singing has been held was in attendance here Sunday afternoon for the fifteenth annual event. Song leaders from throughout the district were in attendance with the better-known quartets, from this section. The Dover quartet, Key Brothers Quartet, Park's Quartet, Gunter's Flat, were present. Murray has been a center for song leaders on this day for years and those interested were very much pleased with the attendance here Sunday.

### Shaving, Hears Radio Tell of Sister's Death

Miss Dorothy Turner, popular student of the Murray State College, whose home was at Wingo, was drowned in a lake near Murray Saturday a week ago. One of her brothers, Trawell Turner, was sent to him. He could not be located. Five hours later he was at his home, in the bath-room, shaving, when he heard the police calls over the short wave station, and he was startled when there came over the radio in another room, the announcement that he was sought with the information that he was wanted at Wingo, Ky., on account of the accidental drowning of his sister.

### CROWD TO BE AT PINE BLUFF 4TH

American Legion Plans Real Event This Year; Boat Races, Eats, Ball Games.

Hundreds are expected for the Pine Bluff celebration of the Fourth of July event sponsored by the American Legion Post of Murray. The Legionnaires are working hard this year for a real entertainment and a larger event is expected.

A real outing event is planned and those seeking a day-out in the open will enjoy the occasion. Special attention will be given to the securing of perfect order. You may park your car this year under the supervision of the sponsors and leave it for the entire day while you take the day off on the river. There will be plenty of state-fair visitors, barbecue, sandwiches of various kinds, cold drinks.

Ball games will be arranged for the morning and afternoon and boat races will be held at 10 a. m. and 4 p. m. The boat races will be a much larger event this year. Ed Sears, of Paducah, will have three fast boats and a boat will be out of Paris and Murray boats will assure a racing event. Surf board riding will also be included in the water events.

Passengers touring up the river will be offered visitors by visiting boats at all hours except during race events. The visiting public will not be subjected to long addresses and speeches and no formal program has been arranged. An outing event has been planned across the river on the bluff side.

### Mayor Swann At Capitol Conference

Mayor W. S. Swann left Saturday night for Washington to attend a conference between the Federal Power Commission, the Tennessee Valley Association and the Southern Industries and Utilities Co.

The latter, headed by W. G. Waldo, is asking the T. V. A. for payment for its work in the Tennessee Valley. It is understood here that a proposal that each of the three name an engineer on a board of three to determine the amount to be paid Waldo has been objected to by the T. V. A.

### Typhoid Warning Has Been Issued

The Calloway county health department has received a typhoid warning from the U. S. Public Health Service Bureau. The prevalence of typhoid is expected due to drought conditions in this section. Warning is given to take every precaution in securing drinking water and in waste disposal. Wells should be tested to determine water condition and typhoid "shots" should be given. There are two cases in the county at the present. The cases are in the same family on the East side of the county. Dysentery and other fifth bowel diseases are expected to increase.

### Pink Hayes Takes Clothing Sunday

Pink Hayes, Negro, took three shirts and a pair of shoes from the National Stores during the rush hours Saturday afternoon. Hayes was discovered in the effort and Vernon Hale, manager, and Caraway, clerk, gave chase to the Negro. Hayes dropped the garments in the chase and got away. The shirts were of boys size. Hayes was arrested by police officers and placed in jail on a charge of petit larceny.

## EXTENSIVE PLANS FOR AURORA DAM IS REVEALED BY THE T. V. A.

R. S. Mason in Congress Race

Hon. R. S. Mason, successful business man, farmer and public spirited citizen of Lyon county, filed declaration of his candidacy for the Democratic nomination for Congress from the First District

with Miss Sara Mahan, secretary of state for Kentucky, Monday of last week.

Mr. Mason is widely known over the district, having made the race for Congress in the state-wide campaign 2 years ago with much credit. This was his first political venture and he is expected to give a much better account of himself in the present race.

The Lyon county leader has long been a potent factor in the life and development of his section of the state, giving unstintingly of his time and talents in every movement calculated to benefit his community, district, state and nation. He is at present advisory committee-man of the Eastern Dark-Fired Tobacco Growers' Association for his district, director of the Federal Production Credit Association, chairman of the Federal Employment Service for Lyon county. He has been for 28 years superintendent of the Edenville Methodist Church Sunday School and has always been identified with the best element of his home county and the district.

While Mr. Mason has been active in politics for some years, always as a supporter of friends who sought preferment at the polls, this is the only office he ever has sought. His personal message to the Democracy of the First District appears elsewhere in this issue.

Several Murrayans attended the T. V. A. Rally at Jackson, Tenn. Last Friday, Dr. H. A. Morgan, president of the Calloway Aurora Dam Club, M. O. Weather, T. O. Baucum, E. J. Biele, Hall Hood, T. R. Jones, K. C. Frazee.

Those attending from Murray were: H. I. Sled, W. S. Swann, president of the Calloway Aurora Dam Club, M. O. Weather, T. O. Baucum, E. J. Biele, Hall Hood, T. R. Jones, K. C. Frazee.

### Waldo's Claim to Site Being Arbitrated in Washington

WASHINGTON, June 26—Another phase of President Roosevelt's dam and water utilization program, having both social and economic import, was entered upon today when Federal officials strove to clear the way for starting work on the \$42,000,000 Aurora power dam unit of the Tennessee Valley development, in South western Kentucky.

Plans were expedited both to provide emergency work relief in the region at once and carry on the valley undertaking which it is estimated will cost ultimately \$10,000,000, with the incidental expectation that it will become self-supporting.

Today's efforts were directed toward eliminating from the situation a private company—the Southern Industries & Utilities Company—holder of a preliminary permit, obtained several years ago, for developing power on the Tennessee. That company had challenged the right of T. V. A. to take over the development, the T. V. A. contending, however, that it must have control of the entire river system in order to carry out its long-range plan.

Chairman Arthur E. Morgan of T. V. A. took a step which indicated an early settlement when he presented a request this afternoon to the Federal Power Commission to sit unofficially to arbitrate the case. Inasmuch as the power body already had indicated its stand, today's activity was taken to mean that the question of the preliminary permit promotion to the Federal Power Commission has concluded that its possession of this permit entitled it to a permanent development license.

Among those taking part in various conferences today were Representative W. O. Gregory, in whose district the Aurora dam project is located; Mayor W. S. Swann of Murray, president of the Lower Tennessee Valley Association; and J. A. Olive, Mayfield, secretary of that organization. Chairman Morgan of T. V. A. joined them after attending a meeting of President Roosevelt's executive council. The Kentuckyans urged that work be started at an early date.

So certain, however, is the T. V. A. that its right to proceed will be upheld that it has drawn extensive preliminary plans for the Aurora construction, which is expected to be on the line between Calloway and Trigg Counties, in Kentucky, near the Tennessee border. This dam will be bigger than the Norris Dam, at present the principal unit in the Tennessee Valley system. When completed, it will have cost \$42,000,000.

Without much fanfare the recent session of Congress provided \$48,000,000 additional for the T. V. A. development, for which the extra session appropriated \$50,000,000 in the original \$33,000,000 public works bill. The amount was included in the deficiency bill one of the last to be approved.

### College Has New Music Instructor

The latest addition to the Murray College faculty, Prof. Arthur T. Meyer of Cedar Rapids, Iowa, has arrived on the campus as a member of the music staff.

Mr. Meyer received his B. A. and M. A. degrees from the University of Iowa, majoring in cello and chamber music. He has taught one year each at Cornell College, Mount Vernon, Iowa, and with the Iowa City Public Schools. For two years he was connected with the music department of the University of Iowa.

He has broadcast with various radio ensembles, from station WWSU, Iowa City, and has played with the Tri-City Symphony composed of musicians from Davenport, Ia., Rock Island and Moline, Ill.

The new member of the music staff will instruct classes in theory and methods of music and will conduct private lessons on cello. He will play with the music organizations of the college. The coming of Mr. Meyer marks the second regular addition of the year to the Murray music faculty. Prof. Franklin P. Jones, instructor in wind instruments, joined the staff last fall.

## BLACK-DRAUGHT For CONSTIPATION

"I am 71 years old and have used 'Black-Draught' about forty years," writes Mr. W. J. Vanover, of Rome, Ky. "We are never without it. I take it as a purgative when I am bilious, dizzy and have swimming in my head. Black-Draught relieves this, and helps in many ways." ... Keep a package of this old, reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation.

## Washer-Kelly Marriage

Announcement has been made of the marriage of Miss Anna Washer to Jack Kelly. The marriage took place Saturday, June 16, at Metropolis. The wedding came as a surprise to their many friends to whom it was announced this week.

Mr. and Mrs. Kelly left Tuesday for Louisville and points of interest in that section of the state on a several days wedding trip. They will return to Lexington where Mr. Kelly will enter the University for a short training course.

The bride is the daughter of Mr. and Mrs. Will Washer of just west of Murray on the Mayfield highway. She is a senior graduate of Murray State Teachers' College where she was an outstanding student and had many friends.

The bridegroom is the son of Mr. and Mrs. Bob Kelly, of near Lynn Grove. He is a graduate of the University of Kentucky and has taught vocational agriculture at Faxon for the past two years. He has received a position at Hazel High School and will locate there this fall.

## Magazine Club Meets With Mrs. Salton Higgins

A most interesting meeting of the Magazine Club was held Friday, June 22 at the home of Mrs. Salton Higgins. The subject was the "Circus" and two splendid numbers dealt with the lives of two prominent showmen, P. T. Barnum and William Cody.

Mrs. L. R. Putnam gave the paper on Barnum and told many interesting things the name Bailey in the circus name did not belong to a man but was given to a trained seal, because Mr. Barnum felt that he must have the name in the title of the show. Mr. Barnum also a valued member of the State Legislature, and his life has been immortalized by a musical pageant arranged by the Cleveland Symphony Orchestra.

Mrs. W. W. McElrath said that Mr. Cody was also a member of the State Legislature but became famous for his circus work and his prowess as a killer of buffalo meat for the men who were building a railroad through the West. He killed 4,280 in all, 69 in one day, and was called Buffalo Bill.

As a closing number, Miss Capple Beale gave a touching story of a little lad lured from his home and Uncle Daniel by the romance of the circus and who learned to his sorrow the seamy side of circus life.

Mrs. Higgins served a salad course.

The next month's meeting will be held at the home of Mrs. J. D.

Sexton, Mrs. Ben Crogan will be host.

## Miss Robertson's Visitor Honored

Miss Dorothy Robertson was host to a group of young people last Friday evening complimenting her visitor, Miss Sada Bateman, of McKenzie, Tenn. A scavenger party was given and an ice course was served later at the home. Those included were:

Miss Katie Irvan, Miss Mary Katherine Irvan, Hardin, LaNelle Sires, Mrs. O. B. Irvan, Jr., Miss Winifred Keys, Miss Helen Decker, Miss Sara Bateman, Jim Ed Duguid, Everett Ward Outland, Ira Crosby, James Holcomb, H. B.

Bailey, Jr., Jerral Putney, O. B. Irvan, Jr., and John Overby.

## Mrs. L. H. Robertson Honored

The children and grandchildren of Mrs. L. H. Robertson gathered at her home on June 23 to celebrate her birthday.

A bountiful dinner was spread on the lawn, and in the afternoon cream and cake was served. Mrs. Robertson received many nice presents and a very pleasant day was spent by all.

Farmer England and Max Logan of Blytheville, Ark., spent the week end in Murray visiting friends and relatives.

of the Members of the

WESTERN DARK FIRED TOBACCO GROWERS' ASSOCIATION

to be held at the

COURT HOUSE, MURRAY, KENTUCKY

Wednesday, July 11, 1934

at 1:00 P. M.

The purpose of the meeting is to hear reports from the President, and for transacting such other business as may come before the meeting.

This is your meeting. You are urged to come and bring somebody with you. We want you to enter freely into the discussions, for it is clearly indicated that if the farmers align themselves, as a unit, with this organization, they will reap to themselves the greatest benefits from their tobacco ever known in the history of this country. Come and hear the good reports.

Respectfully,

## Nat Ryan, Sr.

Murray is not quite the same with Nat Ryan, Sr. no longer in his accustomed place.

Mr. Ryan was such an active figure in Murray that his absence makes one feel indeed that something is very much amiss.

Had he lived until next September, Mr. Ryan would have been 83 years old and was thus the oldest merchant in point of years in age as well as in continuous service in the city of Murray. Mr. Ryan did not merely retain his name in the firm but was actually and actively the fountain head of his business until his death.

It is doubtful whether Mr. Ryan had a great deal of desire to live longer. His work on earth was nearly done, he felt, and after the death of his beloved wife just a few months ago he seemed to lose his attractiveness for the veteran merchant and citizen.

Mr. Ryan's unusual energies were concentrated upon three important points of life, his business, his church and his family. He was, however, a generous and affable neighbor and citizen who never shirked the slightest duty. A slightly brusque manner thinly concealed a wholesome sense of humor and he delighted in nothing more than a pretended argument.

His commendable energy and keen mind won him success in his business early in life but his natural initiative never permitted him to rest upon his oars or be content with his laurels. Inactivity was anathema to him and he never found time to be tolerant of idleness.

Mr. Ryan never sought recognition for any of his good deeds and most of the noblest of them went unheralded and ununsung. He be-

CITY CONSUMERS CO.

Tenth and Monroe

Paducah, Ky.

Important factors in the development of this section was the whole-hearted and UNSPLINTING (the capitals are ours) co-operation of the people of this section. He indicated that a mad scramble for favors and the use of political or any other kind of pressure to attempt to influence the T. V. A. to do something that was not the most feasible would hurt our cause.

We repeat that Murray wants headquarters for constructing Aurora Dam just as badly as does Paris or any other city. But we believe in Dr. Morgan and his sincerity when he made his statement concerning the kind of co-operation the T. V. A. wants and the kind of activity it does not want.

We believe Dr. Morgan in that the T. V. A. will select its construction headquarters for Aurora at the point that will be most feasible, efficient and economical and not at the point that succeeds in applying the most pressure or creating the most bally-hoo.

It seems to us that it would be in much better spirit for each city to offer its complete co-operation and let the T. V. A. make its choice for its own reasons unhindered and unworried by a distasteful kind of pressure.

Murray, it is true, has organized a chamber of commerce. But the sole purpose of that organization is to attempt to gain for Murray legitimate enterprises and activities that will naturally gravitate toward this area under the lure of cheap power. The Murray Chamber of Commerce has not and will not attempt to use any kind of unjustified or unwarranted pressure to persuade the T. V. A. to locate construction headquarters in Murray.

## JUST JOTS

By Joe

Picking up again after an absence of two weeks. By actual nose count, two said they missed the Jots and none missed the editorial column.

It was cool when I went away and hot when I got back. Don't blame me for bringing you hot weather; you unloaded it on me when I returned.

I didn't learn a single new story or wise crack while gone so you will have to wait until next week when I shall have had a chance to revamp some of those in the exchanges.

Just a word of warning. The softball league is a great success and it would indeed be a pity if any of the 200 or so players in the heat of a game in an overwhelming desire to win that would upset the league.

One of our exchanges praises President Roosevelt for batting 300 but expects Gov. Laffoon to bat 1,000.

"It's always fair weather when good fellows get together" and it's always hot weather when the Kentucky Press Association gets together.

Legislature's meeting. Taxpayers bleating.

The greatest objection to the weather is that it is too hot in summer and too cold in winter.

Honestly, we think we are better newspaper men than softball players and hope you think so, too.

Overheard at the gate at the end of the softball games the other night. A woman to her not-so-handsome husband: "I'm not ashamed of the way you look but I am ashamed of the way you act."

The way of the transgressor is hard but often looks so easy it is deceiving.

John Lawrence says the fight was more than Carnera could bear and the new champion is almost the same way on the country.

It's better to be the heavyweight champion with your brain than with your mits.

Brains create ideas but it's personality that puts them over.

Thank God some of the men who think they should be running Kentucky are not doing it.

The old-fashioned man who burned oil in the midnight lamp has a son who burns it in the crank-case.

Strange, isn't it, that when the boys take to one-armed driving they always head for the narrowest lanes?

The world's sheep population is estimated at 500 million without including those who get to wall street.

## Tobacco Export Shows Increase

The anticipated up-swing in the tobacco export trade of the United States has apparently set in, a report to the Louisville District Office of the Commerce Department indicates. While the value of tobacco and tobacco products exported in the first four months of 1934 was appreciably below the levels of the corresponding periods of 1929, 1930 and 1931, sales abroad were notably in excess of 1932 and 1933.

Total foreign shipments of leaf tobacco from the United States during the January-April period of the current year totaled 141,156,101 pounds, valued at \$28,844,022, compared with 118,559,085 pounds, valued at \$20,624,531 in the corresponding period of 1932 and 129,848 in the like 1933 period. While the depreciation of the dollar may have contributed to increased leaf tobacco exports in 1934, the chief factor, it is pointed out, is doubtless the more or less general cleaning up of American tobacco stocks held in foreign warehouses.

During the past few years, substitution of foreign-grown tobacco for American leaf has markedly affected purchases from the United States. It is now believed that substitution has reached the saturation point, not only in domestic grown tobacco but in the substitution of low-grade American tobacco for the better grades formerly bought. The situation in connection with substitution has no doubt been reflected in the class of tobacco now being exported, which during the first four months of 1934, were sold at an average price of \$20.45 per 100 pounds against an average of \$14.83 in the corresponding period of 1933.

## Murray Loses To Paducah 6-2

The Murray baseball nine lost to the Paducah Indians here Sunday afternoon 6-2 with Murray playing poor ball and reaching the first sack only through errors before the sixth inning when McKenzie and Wilmoth both swung for hits. In the eighth, Wilmoth again got a long, clean single to score two runs.

M. Weeks pitching for Murray, allowed several hits but pitched a number of innings of nice ball. Weeks allowed nine hits and Wesley for the Indians allowed four. Bradford received for Paducah and Beard for Murray. Murray had G. W. Faughn on the second sack and Charles T. Yarbrough in center field. Yarbrough received a painful sprain of the right ankle in the seventh.

## 200 Ladies Attend Frigidaire School

Over 200 Murray women attended the Frigidaire refrigeration and food preservation school held at the Johnson-Fain Music Co., last Wednesday and Thursday. The school was held under the direction of Miss Ellen Worth. Lectures were held each day at 2:30 and 7:30 P. M. and consisted in household economy, household time-savers and step savers, the planning of menus and new recipes for fine foods and desserts.

As many as sixty were present at a time for the lectures and many spoke of it as one of the most progressive demonstrations in household work in some time. Six guests were given by the Johnson-Fain Music Co., and were received by Mrs. Ed Farmer, Mrs. E. J. Trall, Miss Evelyn Linn, Mrs. Charles Crawford, Mrs. Wallace Key, Mrs. C. C. Poole. The prizes were attractive radio lamps.

## SAFEST TIRE FIRESTONE EVER BUILT

THE New Firestone High Speed Tire for 1934 was built to give you the same dependable service it provided for the 33 drivers who started in the torturous 500-mile grind at Indianapolis May 30.

This new tire has a wider tread of flatter contour, deeper non-skid, more and tougher rubber, giving you more than 50% longer non-skid mileage.

Besides being Safety Protected on the outside it is Safety Protected on the inside. Eight additional pounds of pure rubber are absorbed by every one hundred pounds of cords.

This additional rubber is so placed that it surrounds every cotton fiber inside every cord in every ply. This is accomplished by soaking the cords in liquid rubber by a Firestone patented process. This patented process, Gum-Dipping, is not used in any other tire built.

Heat caused by internal friction of cotton fibers destroys tires—causes separation and blowouts.

Gum-Dipping counteracts friction and heat—provides greater adhesion and binds the cotton and rubber together into one cohesive unit of greater strength, assuring car owners of the greatest Safety, Protection and Economy that it is possible for human ingenuity to build into a tire.

The most amazing proof of this extra strength, safety and dependability is the fact that everyone of the 33 drivers at Indianapolis chose and bought Firestone High Speed Tires. Race drivers KNOW tire construction—they will not risk their lives or chance of victory on any other than Firestone.

At terrific speeds the cars plunge into the treacherous turns—tires are braced against the scorching brick track—so hot the tires fairly smoke at times—they give—yield and stretch—every conceivable force works to tear the tire to pieces, yet Firestone High Speed Tires "come back" on the straightaways. Not once during the entire race did a tire fail.

Surely this is the most amazing proof ever known of Extra Strength, SAFETY and dependability. Call on the Firestone Service Dealer or Service Store nearest you TODAY. Equip your car with New Firestone High Speed Tires for 1934.

Very Much Improved After Taking Cardui

"I have suffered a great deal from cramping," writes Mrs. W. A. Sewell, Sr., of Waco, Texas. "I would chill and have to go to bed for about three days at a time. I would have a dull, tired, sleepy feeling. A friend told me to try Cardui, thinking it would help me—and it did. I am very much improved and do not spend the time in bed. I certainly can recommend Cardui to other sufferers."

Thousands of women testify Cardui relieved them. If it does not benefit YOU, consult a physician.

### Largest Crowd in History of West Kentucky Expected to Attend Backusburg Homecoming July 4th.

The Backusburg Homecoming Committee sensed the heart of the averaged person when it instructed their program director to feature old-time folk music this first year. How well he did his job is evidenced by the wide-spread interest manifest in the coming of the "Grand Old Opry" from Nashville July 4th to appear in person on the Homecoming program. It cannot be denied that this aggregation of old-time performers is one of the best in the United States. They could not have stayed with a forty million dollar company nine years had they not been good. Picturing life in the Tennessee hills which is close to earth the fall of 1923. It is confined strictly to old time songs as interpreted by the fiddlers and banjo pickers of the territory surrounding Nashville, and still receives more fan mail every morning than most any feature on the air.

CALL 191

gram was started as just a plain barn dance affair in November, 1925, featuring Uncle Jimmy Thompson who was over 80 years old, and claimed he only got warmed up in the hour allowed. Another colorful character of the Grand Old Opry was Uncle Bunt Stevens who hailed from Lynchburg, Tenn. Uncle Bunt was awarded the Blue Ribbon by Henry Ford in a nation-wide contest which was held by the manufacturer several years ago.

The coming of the name "Grand Old Opry" came about in this fashion: Dr. Walter Damrosch of the New York Symphony Orchestra said at the last number of his radio period that realism had no place in the classics, nevertheless he had a manuscript before him depicting the onrush of a locomotive. Following the rendition of this charming number, the program was interrupted by a period of broadcast by explaining that his feature (known now as the Grand Old Opry) would be nothing but realism, and called upon DeFord Bailey to depict the onrushing locomotive in an entirely different manner, whereupon DeFord began his now famous Pan-American Blues on the harmonica. The contrast was so marked that this feature on Saturday nights could not properly be called Grand Opera, yet it was folk songs and there was nothing against calling it the Grand Old Opry, which name has stuck to this day and is known throughout the United States and several foreign lands as such.

As added attractions, it has been announced that a 30-piece band and a regular dance orchestra have been engaged, as well as black-face minstrel galore. Also, and NBC artist in the person of "Dad Pickard" has been contracted for; likewise Jack Jackson, Swiss yodeler.

George Dewey Hay, loved by thousands as the Solemn Old Judge, who won the gold cup in Chicago in an international contest as best master of ceremonies in the world will be on hand at the Homecoming to put things over with plenty pep. His associate announcer, Tiny Stowe and two other master of ceremonies will come along to keep things going from 8 o'clock in the morning till midnight. Residents of southern Illinois, Paducah, and west of Highway number 45 in Kentucky should go to Mayfield and take Farmington road. Tennessee River section should go through Murray, taking Coldwater road. Marshall County should go by Benton and Brewers to Backusburg, which is near Mayfield.

It has been announced that over 100 radio stars and other entertainers will perform there that day, and that over 100 head of barbecue will be used. Public address system will be used with loudspeakers on trees to carry sound from stage to outer edge of crowd. Contrary to what most people expected, the admission for this 16 hour program will be extremely low; 10c straight for the first thousand to arrive, thereafter, 10c for children and 25c for adults.

### TENNESSEE HIGHWAY TO GIVE MURRAY INCREASED TRAFFIC

The state of Tennessee has let the contract for the building of a short, new highway which will connect the Concord Highway with the Austin-Peay Highway a short distance from the bridge over the Tennessee River there.

This new connection will materially aid Murray in that all traffic from St. Louis and points north to Nashville and points south will be diverted through Mayfield and up to Paris. The contract for the building was let last Friday at Nashville and calls for the grading and draining of 2.5 miles from Highway 76 to the Kentucky line. The contract was received by the Lebanon Bridge Company, of Nashville.

With the completion and marking of this route, a decided increase in tourist traffic is expected to be noted. The distance to Nashville and points south will be materially reduced for people of this section as well. At present the best route is to Hopkinsville and then South while others go through Paris in reaching Nashville. Several miles will be cut from either route through this new road.

MORGAN GIVES  
AURORA PLAN

(Continued from Page One)

before the regular session adjourned. Instead of issuing bonds as authorized in the original bill, T. V. A. urged the additional appropriation.

How much money will be spent at once on the Aurora project has not been determined, but T. V. A. officials said today that the first work would be that of acquiring the necessary land and clearing a reservoir site. This is expected to provide work for thousands of men, thereby taking up slack caused when C. W. A. workers were dropped in the T. V. A. work. In this way, the prospective activity will take the form of emergency relief.

**Is Tremendous Job**  
Some idea of the magnitude of the Kentucky undertaking is shown by the plans calling for a reservoir 165 miles long and taking in what are now farm lands covering an area of 167,000 acres. The proposed lake will run from the Aurora dam sit to Pickwick Landing, Tenn., where eventually it is planned to construct another \$39,000,000 dam.

When the Southern Utilities Company sought unsuccessfully to obtain a permanent license for the Aurora development, T. V. A. contended that if a private company, without regard to the general program, could build any kind of a

dam it wanted on the Tennessee, the purpose of the law to create a co-ordinated plan of navigation control, power development and land utilization would be defeated. It, therefore, argued that it should have entire control of the system. It also decided that the Aurora dam was a necessary unit in its scheme. Briefs were filed with the power body by both T. V. A. and the company.

Later, however, the company indicated that it was willing to have the case arbitrated. Whereupon T. V. A. officials, pointing out that the public interest was involved, said that arbitration should be put into the hands of a public body. Out of this grew the proposal, presented today, that the Power Commission sit as an unofficial tribunal in the matter.

T. V. A. officials disclosed, incidentally today, that the entire power output of the valley development is being sold, making it all the more desirable to push additional projects. The big Norris and Wheeler Dams in the area are not one-fourth completed.

Softball Heads Give  
Player Selection Plan

Effort to be Made to Curb Changes in Lineups; Second Half July 13

During the last few weeks of the softball playing season no little discussion has arisen as to some change in the manner of selecting and classifying players for the second half flag chase which gets under way on the night of July 13. The Board of Control has had many and varied solutions, one of which has been adopted and is hereby ratified. Each sponsor will select the ten men he wants from

the present squad and they will constitute the signed men. It men put under contract by the sponsors themselves and not drawn. These lists will be submitted to Secretary Herschel Corn on or before the 6th day of July at 6 P. M. so that they may be entered of record.

The remaining players not thus selected, will be listed by the managers or sponsors and this group will also be turned in to the secretary at the same time. This last named list will be made public and the names picked by the eight owners. The team finishing last in the first half to have the first choice and the team finishing first to have the last pick. These men are not to be drawn as was done in the first half but are to be chosen by the team managers after they have seen the list.

The choices will be made one at a time. In short, the team that picks the first man must wait until the other seven teams have had their chance. In case two or more teams are tied in games won and lost at the time of the picks the managers of the tying teams shall determine who is to have the first shot. The selections will be made at the Bank of Murray on the eleventh of July at 8 o'clock.

The squad that each manager selects both from the team now playing and those chosen at the public hearing will constitute his entire club for the second half. In other words, managers will not be permitted to trade or sign anyone after July 12. Under no circumstances can a squad be altered as to personnel unless the players are injured or sick so that the team so hampered is below ten men.

The changes will be discussed and explained at the meeting to

be held in the Courthouse on Monday, July 2, at 8 P. M.

The Board of Control believes that the measures decided on will benefit the league as a whole and make for a close race in the second half that the association has enjoyed during the first half.

Any and all rules not repealed or altered in this article will remain as provided in the first half. Any team not complying with the rules will not be permitted to play the first game nor any succeeding game until they have complied, in the second half.

A Record of  
SERVICE...

In the many years this establishment has been identified with this community, a reputation for dependable, dignified service has deservedly accrued to it. And yet an important phase of our policy recognizes your financial considerations so the necessity that you be practical, in no way, detracts from the thoroughness and beauty which we accord the final rites of your beloved.

## Ours is a Frigidaire '34"

Big, husky ice cubes—120 of them at one freezing.  
But that's only one reason why everyone is talking about the Frigidaire '34.  
To begin with, it has automatic ice tray release... the trays slide from the freezer at a finger touch! And automatic defrosting... it turns itself on when defrosting is completed! Then, there are models with Life-

time Porcelain inside and out... double Hydrator capacity... much greater food space... the Sliding Utility Basket... the Frigidaire Servashelf... interior lighting... extra space for tall bottles... and—come in, won't you?... That, really, is the best way to see just what's happened in electric refrigeration; to learn just why people are proudly saying, "Ours is a Frigidaire '34."

Here is a Frigidaire that Uses Less Current than One Ordinary Lamp Bulb.
